Subject: Extension of Accreditation

Dear Sir,

This is in reference to your application for renewal of NABL accreditation. The accreditation of your Mechanical, Thermal and Electro-technical Calibration laboratory will be expired on **25th November 2017** and re-assessment was conducted on **03-08th October 2017 (Split)**.

As per NABL criteria, since your laboratory has applied for renewal of NABL accreditation 6 months in advance from the date of expiry of certificates and reassessment conducted before expiry, the existing validity of accreditation in Mechanical, Thermal and Electro-technical calibration is extended for three months from the date of expiry or till the further decision on renewal of accreditation is taken by NABL whichever is earlier.

This extension in validity is applicable only to existing scope issued by NABL.

Yours faithfully

(Mohit Kaushik)
Assistant Director
